STEEL WOOL

# TROLLULL

## Guaranteed Product Quality

**Reliable grading**
Guaranteed quality assurance in grade selection.

**Elasticity**
Guaranteed durability for working in awkward areas.

**High breaking strain**
Guaranteed for frequent use.

**Ecological**
Steel Wool and packaging are completely recyclable.

## Scale of Hardness (as per F. Mohs)

The Scale of Hardness indicates in which areas **TROLLULL steel wool** grinds gently, smooths softly and cleans without scratching.

| Materials | Grade of Hardness | Surface selected |
|---|---|---|
| DIAMOND | 10 | |
| SANDING PAPER<br>SANDING FLEECE | 9 | Earthenware<br>Ceramic glass |
| SPONGE SCOURERS | 8 | Porcelain |
| | 7 | |
| GLASS PAPER | 6 | Window panes<br>Enamel<br>Hard metals<br>Hard synthetics |
| | 5 | |
| **TROLLULL STEEL WOOL** | | |
| | 3 | Wood<br>Acrylic paint<br>Varnish, Shellac |
| | 2 | |
| | 1 | Plaster boards |

These robust **surfaces** can be **cleaned and processed scratch-free** with steel wool

These delicate surfaces can be **smoothened and burnished** with steel wool

## Packaging information

TROLLULL packaging features easy-to-understand instructions. The application possibilities and the materials for which quality steel wool is used are explained within a colour-coding system and are corresponding to every single grade.

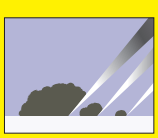
## Unique Application



**Polishing without scratching:**
Extra fine Steel Wool fibres treat surfaces with a "razor blade" effect.

**Gentle treatment:**
Rather than grinding down a surface, it carefully sands down paint coatings – ensuring base coats remain undamaged.

**Enhances structure of wood:**
Wood's natural grain is accentuated after priming.

**Glass, tiles and ceramics:**
Even delicate surfaces like glass can be cleaned without scratching.
